The Curator,
American Numismatic Society
Broadway & 156th Street
New York City.

Dear Sir,

I am forming a collection of one-inch specimens of ribbons belonging to the world's medals & decorations, & am anxious to obtain specimens of ribbons in use in American fire brigades, life saving societies, police force units, etc. I have most of the American naval & military campaign ribbons, & about twenty of the State awards.

Can you give me any assistance, please, such as information regarding organisations using ribbons, or possibly you could help me with actual specimens

of some of the ribbons I refer to.

In either case I should be very grateful for your assistance in the extension of my collection.

Yours sincerely

E. J. C. Moorse.
